

Marc Goldberg
Floor Seal Technology, Inc

Dear Marc,

I wanted to reach out and send you a quick thank you for all the hard work Floor Seal Technology did at New Stanford Hospital.

Your eagerness to be involved and review concrete mix designs and specified concrete finish prior to placement was essential to the successful installation of the resilient floor covering. Not to mention the continual efforts made reviewing the concrete placement and finish throughout the project.

Due to the dedication and timely action Floor Seal Technology showed throughout the project we were able to avoid any large financial and schedule impacts related to concrete finish and curing of nearly 900,000 sq. ft..

Thank you again for providing the expertise and diligence necessary to provide a substrate ready for resilient flooring installation.

Sincerely,

Crosby Thomas
